WHO WE ARE

About Nexus

Nexus Financial Consultancy Services Company is an Afghanistan-based professional services firm providing integrated financial, advisory, compliance, and technology solutions to corporate and institutional clients.

Nexus was established to respond to the growing need for reliable, integrated professional services in Afghanistan. Many organizations face interconnected challenges in financial management, taxation, regulatory compliance, business planning, and digital transformation, but often need to engage several separate providers to address them.

Nexus brings these capabilities together under one professional platform. By combining financial expertise, strategic business advisory, compliance support, and technology solutions, we help corporate and institutional clients strengthen internal systems, improve decision-making, manage risk, and operate more efficiently — with practical, tailored, and sustainable solutions built around each client's real operating environment.

President & Chief Executive Officer

LEADERSHIP MESSAGE

A more integrated approach to strong organizations.

At Nexus, we believe that strong organizations are built on reliable financial information, clear systems, responsible governance, and the ability to adapt to change. Yet many companies and institutions struggle because these areas are treated separately rather than as connected parts of the same organization.

Nexus was established to provide a more integrated approach. By combining financial consultancy, accounting and tax support, business advisory, compliance services, and digital solutions, we help clients address both immediate operational needs and long-term strategic priorities.

Our commitment is to provide practical, confidential, and professionally structured solutions. We seek first to understand each client's actual environment, challenges, and objectives, and then design services that can be implemented and sustained. As a young and forward-looking company, we recognize that trust must be earned through the quality of our work — and we approach every engagement with accountability, integrity, and a long-term partnership mindset.

"Trust is earned through the quality of our work, the accuracy of our advice, and the consistency of our support."

What Guides Us

VISION

To become a trusted professional services company in Afghanistan, recognized for connecting financial expertise, strategic advisory, responsible compliance, and technology to help organizations build stronger, more sustainable operations.

MISSION

To provide practical, integrated, client-focused solutions that strengthen financial management, improve business decisions, support responsible compliance, and modernize organizational processes through appropriate technology.

OUR PURPOSE

To close the gaps between finance, strategy, compliance, and technology so that organizations can operate with greater clarity, control, and confidence.

CORE VALUES

Integrity

We provide honest advice, protect client interests, and act on facts and professional judgment.

Professional Excellence

We maintain high standards of accuracy, clarity, documentation, and quality.

Client Understanding

We design solutions around each organization's real structure, challenges, and objectives.

Practical Innovation

We use appropriate ideas and technology to simplify work and create real operational value.

Accountability

We take responsibility for our commitments and support implementation through follow-up.

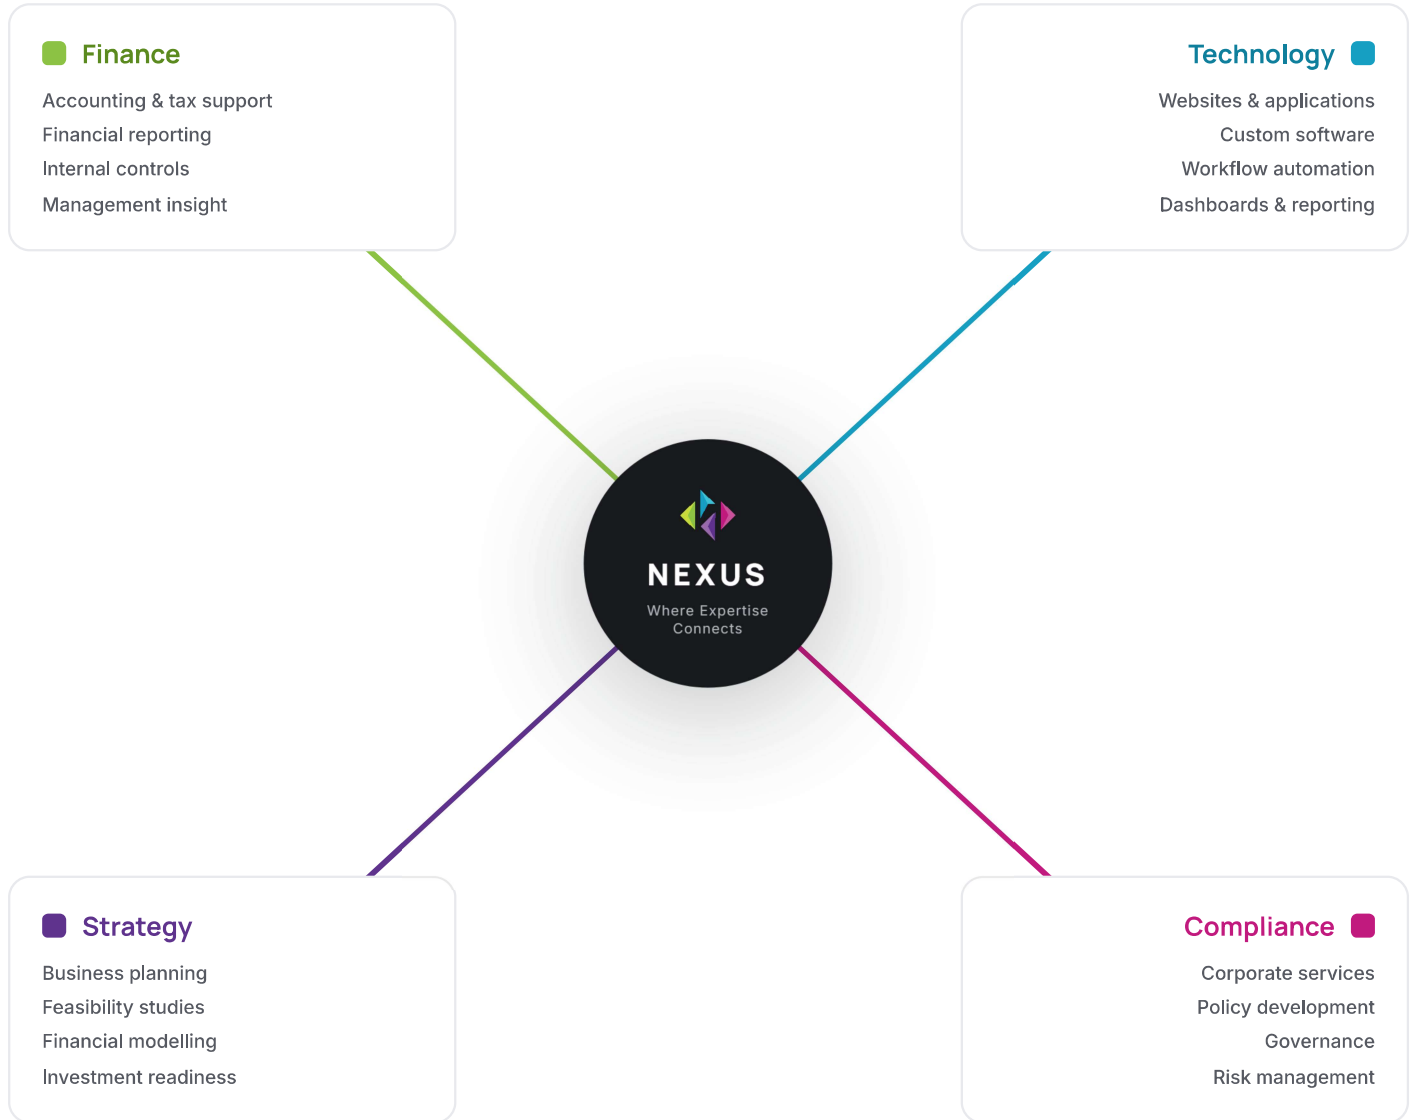

Confidentiality

We protect the financial, corporate, operational, and personal information entrusted to us.

THE NEXUS MODEL

Our Integrated Service Model

Four connected capabilities. One coordinated professional partner.

Nexus views finance, strategy, compliance, and technology as connected parts of a modern organization. By addressing these areas together, we help clients avoid fragmented solutions and build systems that support broader organizational objectives.

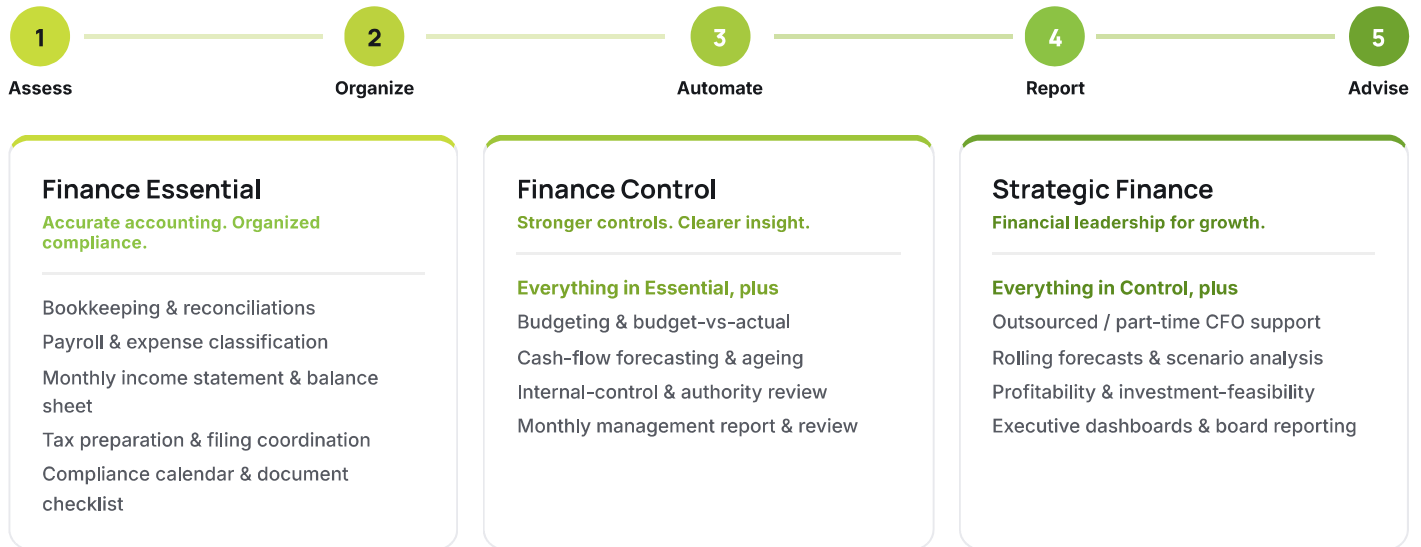

NEXUS FINANCE 360

Nexus Finance 360

From accurate records to better management decisions.

Nexus Finance 360 is an integrated accounting and financial-management solution designed to give organizations more than accurate records — stronger controls, timely reporting, practical insight, and a clear basis for decision-making. We assess the client's financial environment, organize records and processes, introduce appropriate digital tools, prepare meaningful reports, and advise management on the actions required.

"Traditional accounting tells clients what happened. Nexus helps them understand why it happened, what it means, and what they should do next."

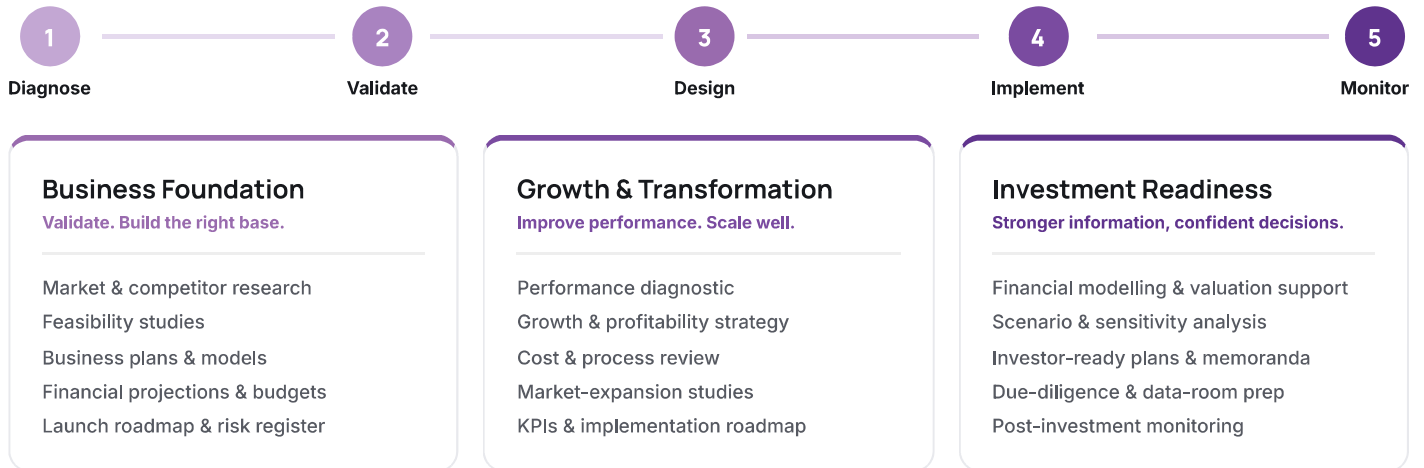

NEXUS GROWTHPATH

Business & Investment Advisory

From opportunity to practical implementation.

Nexus helps organizations turn business ideas, growth ambitions, and investment opportunities into practical and financially tested plans. Our advisory work combines market understanding, strategic analysis, financial modelling, compliance considerations, and implementation support. Through Nexus GrowthPath, we diagnose the situation, validate the opportunity, design the right strategy, support implementation, and monitor results.

"A good strategy should not end in a report. It should lead to clear decisions, coordinated action, and measurable results."

Nexus provides advisory and preparation support and does not act as an investment broker, fund manager, or securities adviser.

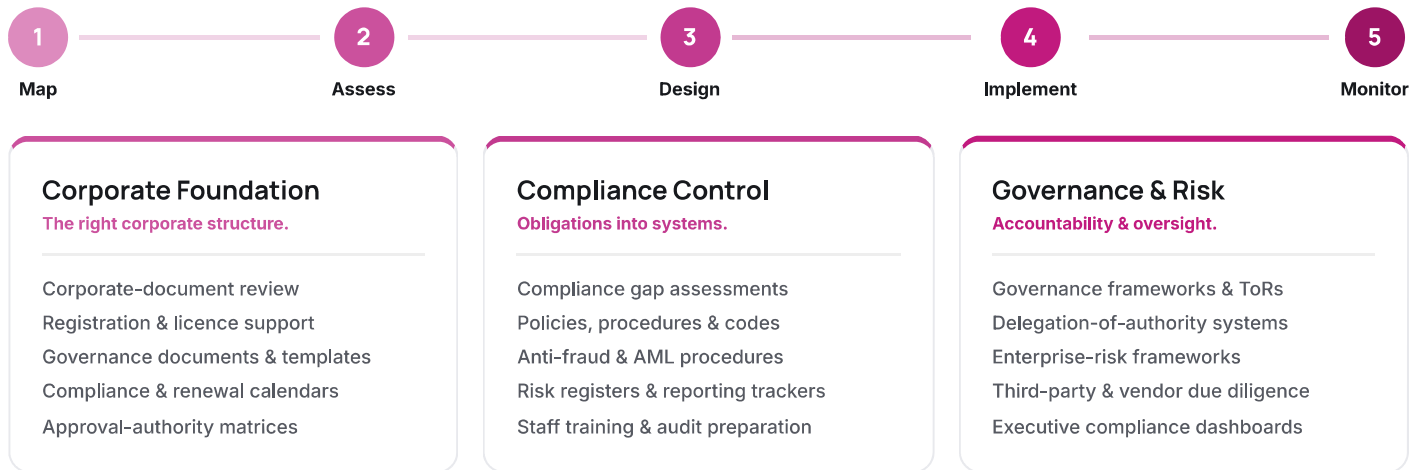

NEXUS COMPLIANCE COMPASS

Compliance & Corporate Services

From obligations to practical systems.

Nexus helps organizations establish the corporate documentation, governance structures, internal policies, and compliance systems required for responsible and sustainable operations. Our services make compliance understandable, practical, and manageable — rather than a collection of isolated documents.

"Compliance is achieved when responsibilities are clear, procedures are followed, and evidence is maintained."

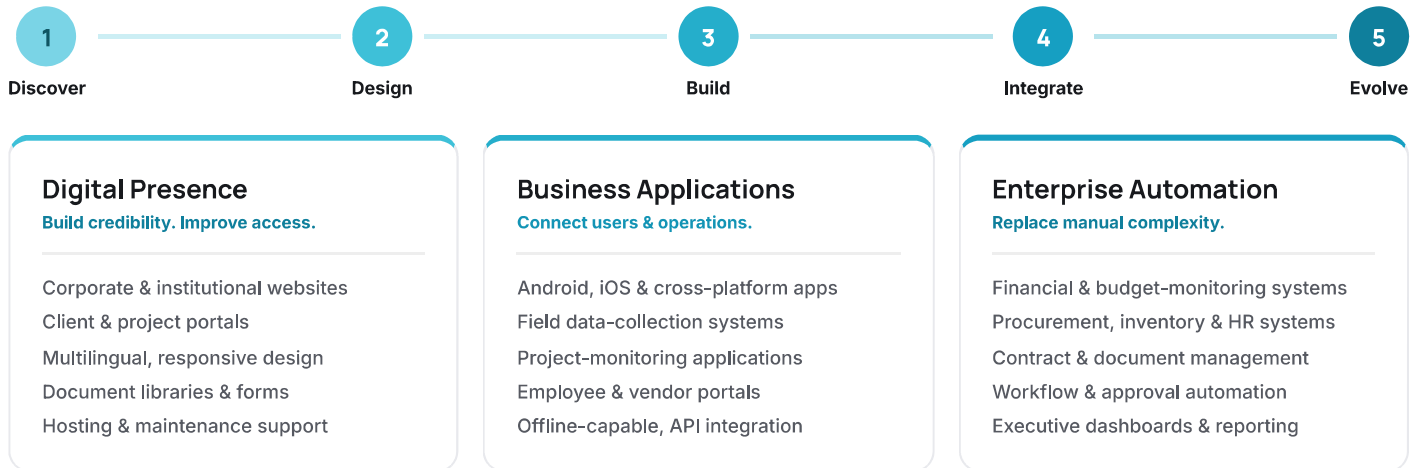

NEXUS DIGITALFLOW

Technology & Digital Solutions

Technology designed around the way organizations actually work.

Nexus designs websites, mobile applications, and custom software that address real operational challenges. Every solution begins with a clear understanding of the client's processes, users, financial controls, and reporting needs. Our combined expertise across finance, advisory, compliance, and technology lets us build systems that are operationally practical, financially relevant, and aligned with organizational controls.

"We do not build technology merely to digitize existing problems. We redesign the process and build the right system around it."

OUR ENGAGEMENT METHOD

How We Work

Structured delivery from first discussion to measurable improvement — a single method that connects our finance, strategy, compliance, and technology work.

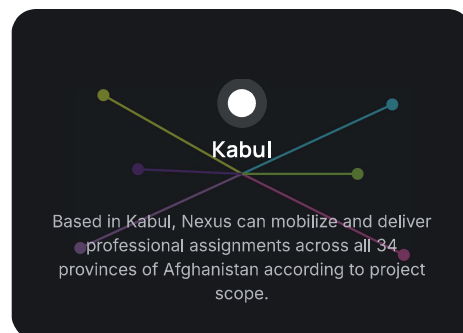

DELIVERY PRINCIPLES

Clear scope · Tailored solutions · Regular communication ·
 Professional documentation · Quality assurance · Confidentiality · Accountability

CLIENTS & SECTORS

Who We Serve

Nexus works with corporate companies, NGOs, institutions, entrepreneurs, and growing organizations whose financial, operational, compliance, and technology requirements demand an integrated professional approach. We adapt our services to each client's sector, size, structure, and stage of development.

SECTORS WE SUPPORT

NGOs & Development

Project accounting, donor reporting, compliance systems, field apps.

Financial Services

Reporting, internal controls, AML frameworks, compliance registers.

Logistics & Trading

Cost analysis, inventory, supplier tracking, vendor systems.

Construction

Project budgeting, cost tracking, profitability, procurement flows.

Healthcare

Financial management, inventory control, asset registers, apps.

Education

Budgeting, fee tracking, payroll, portals, institutional websites.

Technology & Services

Project profitability, pricing, CRM, workflow automation, dashboards.

SMEs & Start-ups

Business plans, feasibility, financial models, investment readiness.

"Different sectors face different risks. Our role is to understand those differences and build the right solution around them."

SELECTED CLIENT RELATIONSHIP

A Trusted Institutional Engagement

EMERGENCY
ONG ETS

ENGAGEMENT

Twelve-month professional-services framework agreement

Effective from May 2026 · Ongoing

Nexus Financial Consultancy Services Company is engaged by EMERGENCY ONG ETS under an ongoing twelve-month professional-services framework agreement effective from May 2026.

Under this relationship, Nexus provides responsive advisory and professional support across organizational documentation, workplace policies, employment and corporate matters, regulatory compliance, taxation, and related institutional requirements.

The engagement reflects Nexus's ability to understand the operating environment of an international humanitarian organization and provide clear, practical, and professionally structured support in accordance with Afghan requirements and the client's internal standards.

BROAD AREAS OF SUPPORT

- Institutional advisory
- Compliance-related consultancy
- Employment & corporate matters
- Bilingual document support
- Policy & procedure support
- Professional documentation
- Taxation & regulatory support
- Ongoing professional assistance

In accordance with professional confidentiality, the commercial terms and internal details of the engagement are not disclosed in this profile.

The People Behind Nexus

Farhad Akbari

President & Chief Executive Officer

Farhad Akbari leads Nexus's strategic direction, institutional relationships, and professional advisory activities across finance, business strategy, corporate compliance, policy development, and organizational systems.

His work emphasizes practical problem-solving, careful financial and regulatory analysis, and solutions designed around each client's operational realities. As President & CEO, he maintains executive oversight of service quality, client engagement, major assignments, and the continued development of Nexus's integrated service model.

Habib Ullah Ehsas

Vice-President

Habib Ullah Ehsas supports executive management, institutional coordination, client engagement, and the implementation of professional advisory assignments.

His role includes assessing client requirements, coordinating financial and corporate-support activities, following the implementation of agreed work, and maintaining clear communication between clients and the relevant professional resources. He contributes to Nexus's commitment to responsive service, organized delivery, confidentiality, and long-term client relationships.

Nexus delivers its services through a multidisciplinary network of finance, tax, business advisory, compliance, policy, and technology professionals. For each engagement, the company assembles the appropriate expertise according to the client's requirements and the scope of work.

**Build stronger systems.
Make better decisions.
Move forward with Nexus.**
